

Moisturizing cleansing cream swiftly wipes off the dirt on the skin.

Wound Care Solution

REMOIS CLEANSE **NEW**

Skin Moisture Cleansing Cream

Skin-friendly cleansing cream 《REMOIS CLEANSE》
Cleansing and **Moisturizing** effects
 can keep the skin condition healthy.

Cleansing with water requires additional preparation.

REMOIS CLEANSE will detach the dirt of the skin and just wiping off the cream can make the skin clean. Cleansing with water is unnecessary and it is convenient to use at bed side or anywhere.

Uncomfortable in a cream sticky feeling

Cleansing with this cream assures refreshed feeling without leaving stickiness. The adhesive tapes and ostomy appliances can be applied immediately after wiping off the cream.

After cleansing with water, the skin tends to lose moisture.

Slightly acidic cream allows less stimulus. Moisturizer added cream will make the skin moist after wiping off and prevent it from dryness.

Natural oil-in makes the dirt detach.
 Just wiping off makes the skin clean.

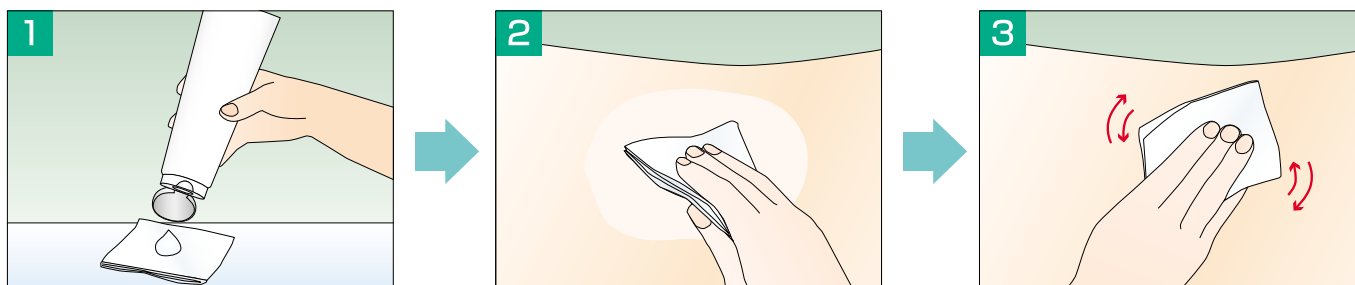

Peristomal Skin

Incontinence Area

Small Area

Just wiping off the cream makes the skin moist and clean.

Instruction for REMOIS CLEANSE

1
Take an appropriate amount of the cream (approximately 2.5 g or a cherry size for 10 cm² area) and apply it to gauze or directly to the contaminated site.

2
Spread the cream uniformly on the skin with gauze.

3
Complete cleansing procedure by thoroughly wiping off the cream on the skin.
*Cleansing with water after wiping is unnecessary, but the skin can be cleaned with water if you need.

Precautions

- Do not apply the cream to the skin with irritations such as wound, eczema and dermatitis.
- Thoroughly wipe off the cream so that no cream remains on the skin.
- Weekly cleaning with soap is recommended to keep the skin more clean.
- Immediately stop using the cream and contact a medical specialist if abnormalities, reddening, swelling, irritation, etc. are noticed during or after application. Or, the symptom may become worse in case of continuous use.
- When the cream is attached to the mucosa, be sure to wash it off with water.
- Do not rub the skin excessively when wiping off the cream.
- Avoid direct sunlight and excessive heat during storage.
- Keep away from infants and children.

What's REMOIS?

ALCARE proposes a new concept for skin care, "Skin Care + Moisture"
Moisture is added on procedure required for skin care and through the improvement of the barrier function, it will keep the skin condition healthy.

The skin with the lower barrier function will dry out due to the damaged stratum corneum, and so it will be easy to be exposed to the external stimulations by allergen* or microorganisms. To keep the skin condition healthy, moisturizing the stratum corneum is significant.

*Allergen:
It causes allergy reaction.
There are many allergen, dead mites, formaldehyde, etc.
